CELEBRATING OVER A DECADE OF BUSINESS

Our Timeline

Telecom Central has been constantly adapting to best serve our customers needs. Our continued growth is testament to the fact that we deliver cutting-edge services, tailored to your needs.

Remote working was simple and effective for us to adjust to with the help from Telecom Central. Our team have been able to work productively at home without disruption.

– Stephen Lewis, Director, Trevor Jones & Co.

ABOUT US

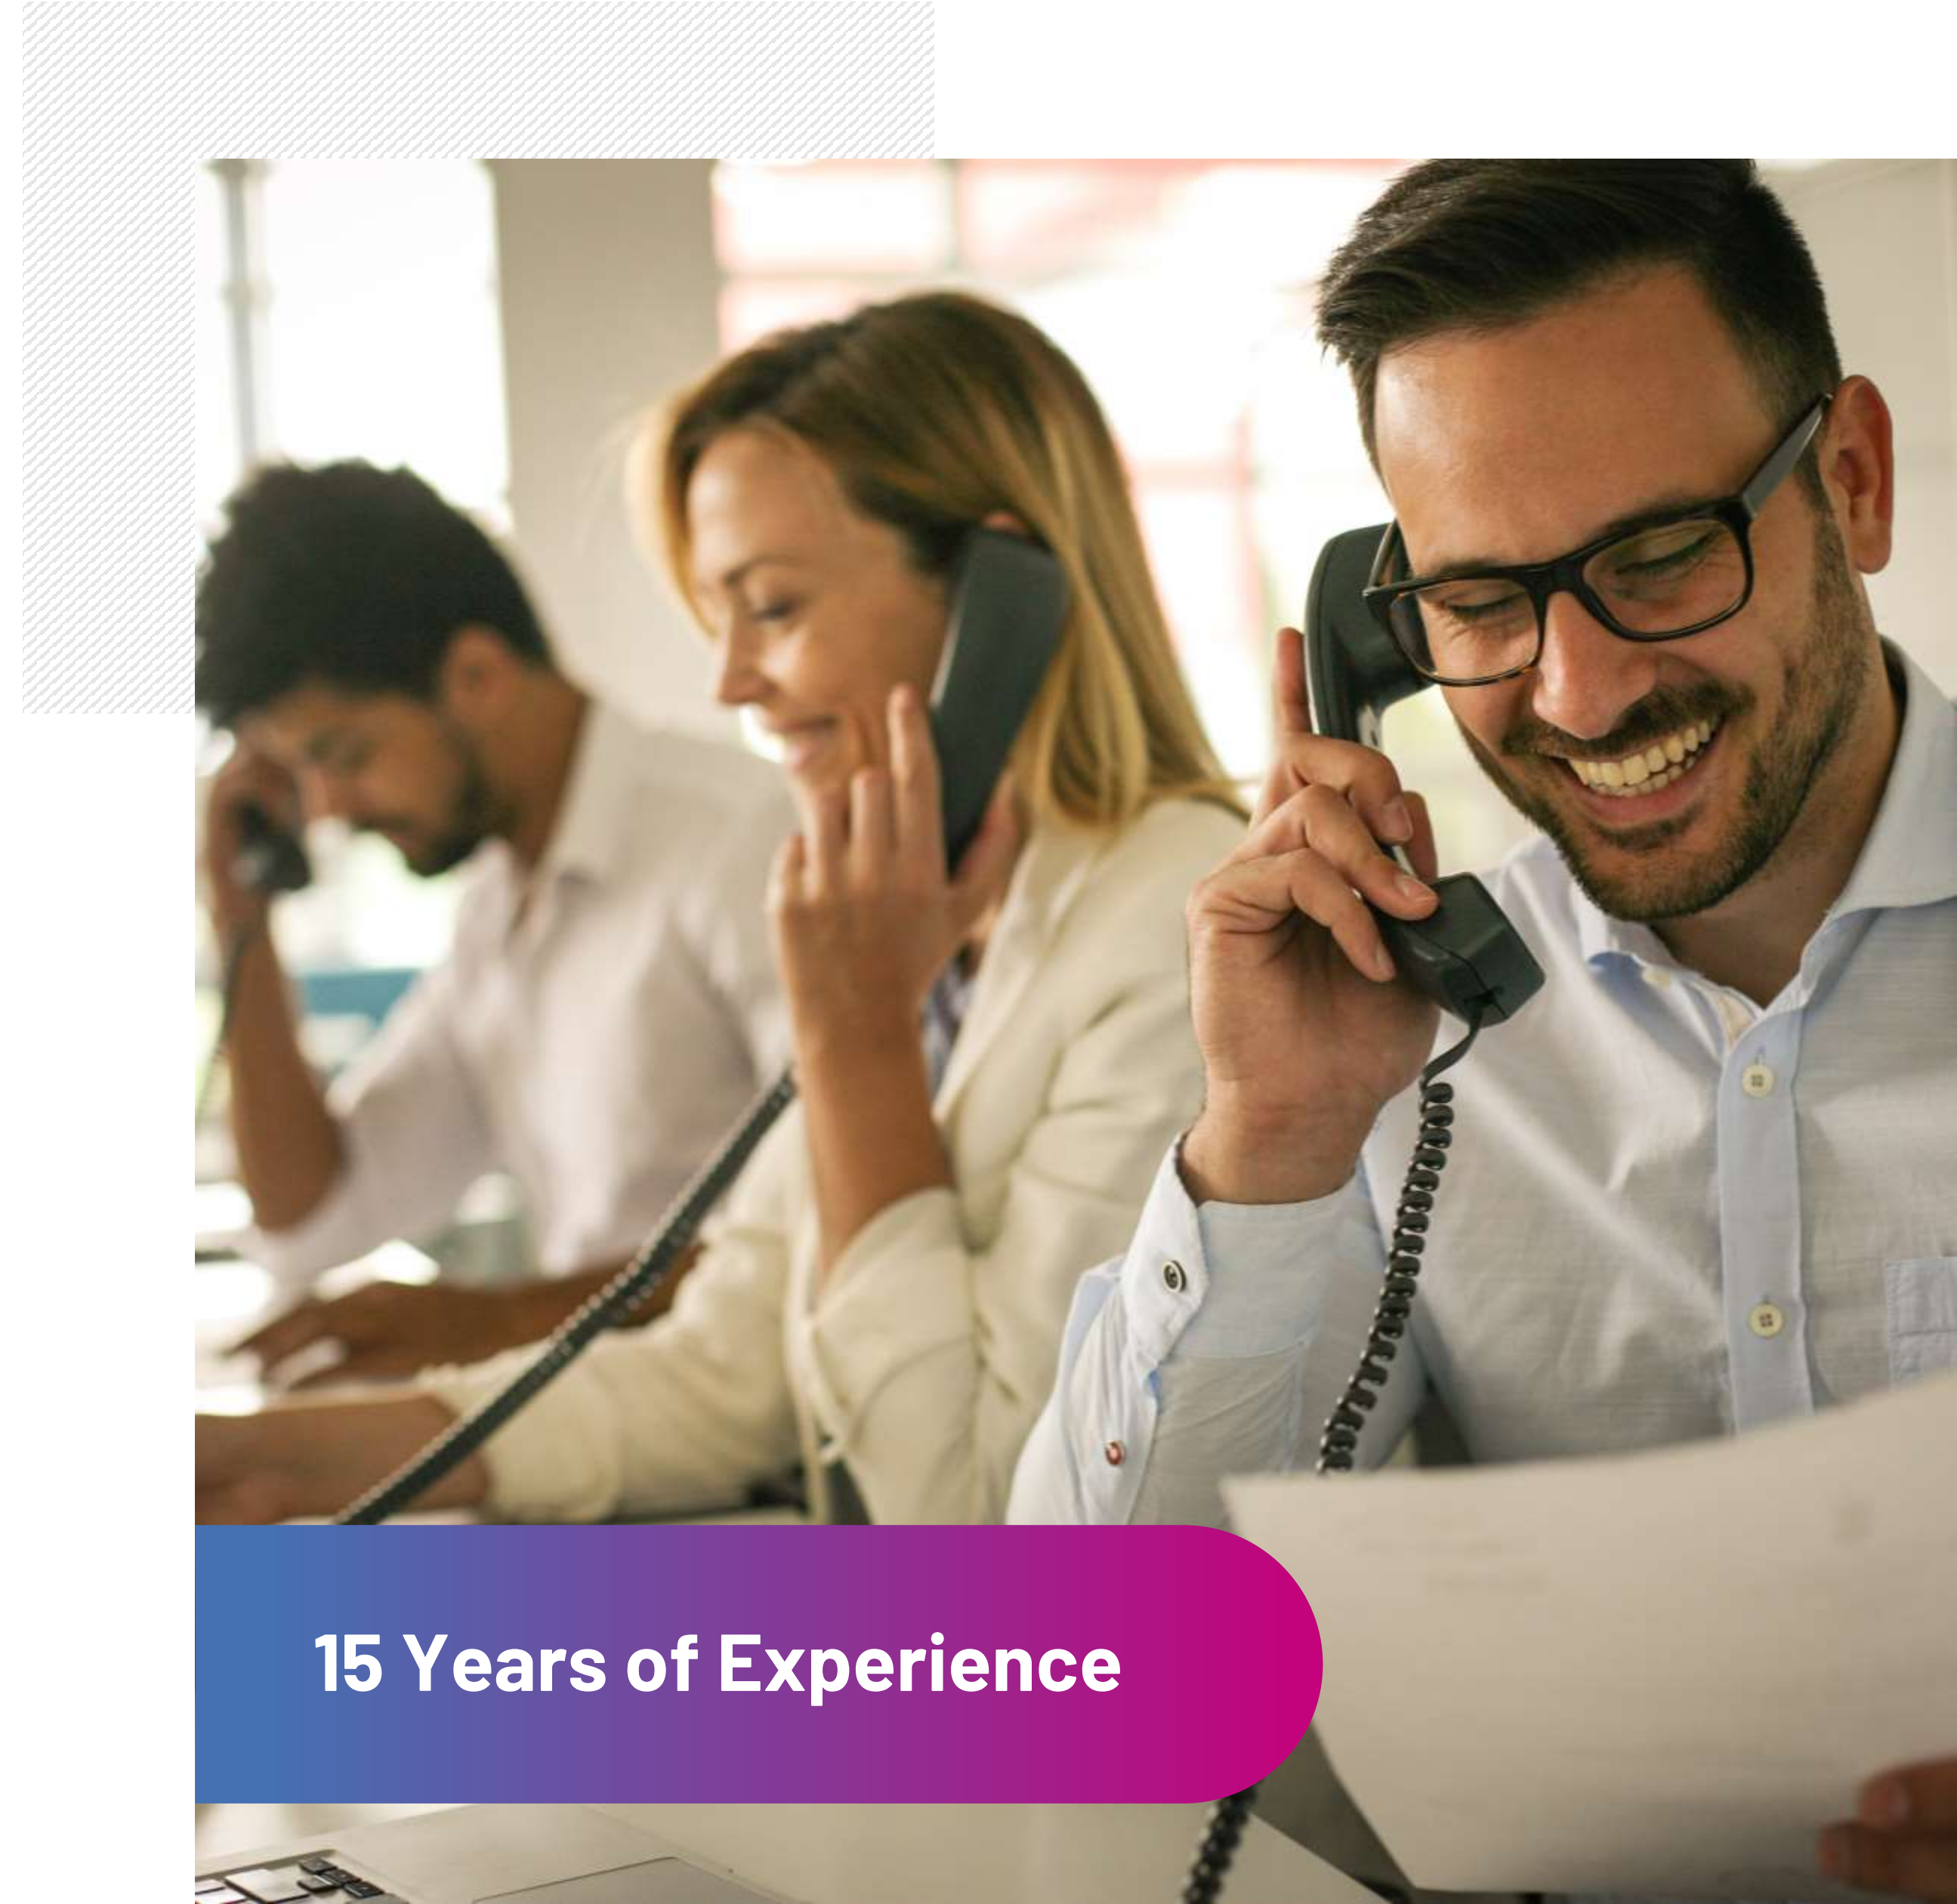

Highest levels of customer service and support

“My philosophy is to create a knowledgeable, friendly, enthusiastic environment for my staff because how they feel has a direct effect on how they make our customers feel. Thankfully, so far our customers appear to be remarkably happy - so I think it's working.”

Dave Hamilton

Owner of Telecom Central

15 Years of Experience

MODERN WORKPLACE COMMUNICATIONS

Simplifying Remote Working

We implement business telecommunication systems and equipment for your staff to work productively in the office, at home and remotely.

As we see a shift towards a growing number of employees working from home or splitting their time in the office and home, organisations require reliable and secure communication systems to operate efficiently.

RELIABLE, SECURE AND INTEGRATED COMMUNICATIONS

How we help you set up remote working

One of our trained Telecom Engineers will help you to understand what you require from a business communication system for office and home based working.

- ✓ We review your current setup
- ✓ Confirm the locations your staff use
- ✓ Check handling of calls through the business
- ✓ Confirm the best fit system, quantities of equipment, telephone and mobiles

ABOUT US

Work is no longer confined to just the office

We'll keep you connected, wherever you are.

Our VoIP Phone Systems deliver reliable, secure and integrated communications for your staff to communicate and collaborate both internally and externally.

OFFICE WIFI

Don't Let Anything Slow You Down

The business world relies on communication so don't allow your business workforce to be held back by the speed and effectiveness of their connectivity to the world.

At Telecom Central we ensure that your wireless networks are performing as efficiently as possible, delivering super fast download and upload speeds throughout your office space.

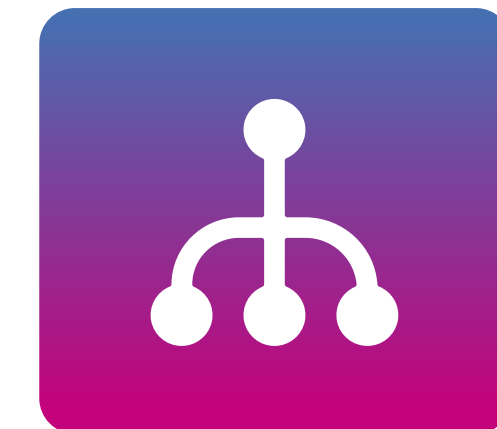

Wi-Fi

Up to 5X faster office

BUSINESS TELEPHONE SYSTEMS

Future Proof, Scalable & Reliable

As specialists in telecommunications, we can help you choose the right telephone system for your business. We make sure it suits business goals and matches your budget. If you already have a phone system you can even make some savings when you upgrade.

PBX & VoIP Phone Systems

We provide traditional PBX 'on premise' phone systems & Cloud based (VoIP) 'off premise' solutions.

Maintenance and Support

You do not need to have a current contract in place for us to help you; we can provide one off repairs or site visits and no obligation advice.

MOVING LOCATION

System Moves & Changes

We Handle Everything

Our engineers have a wealth of knowledge and experience in successfully moving telephone systems to a new site or premises so that everything is in place for your team to use immediately.

As part of our quality control we test all equipment and services before leaving the site with a demonstration and training.

GET STARTED WITH VOIP

Reduce costs and future proof your systems

Making the switch from your traditional business telephone system to a VoIP Telephone system can offer a range of benefits to your business including improving productivity and performance.

A VoIP system also enables you to easily set up and run call recording across your business.

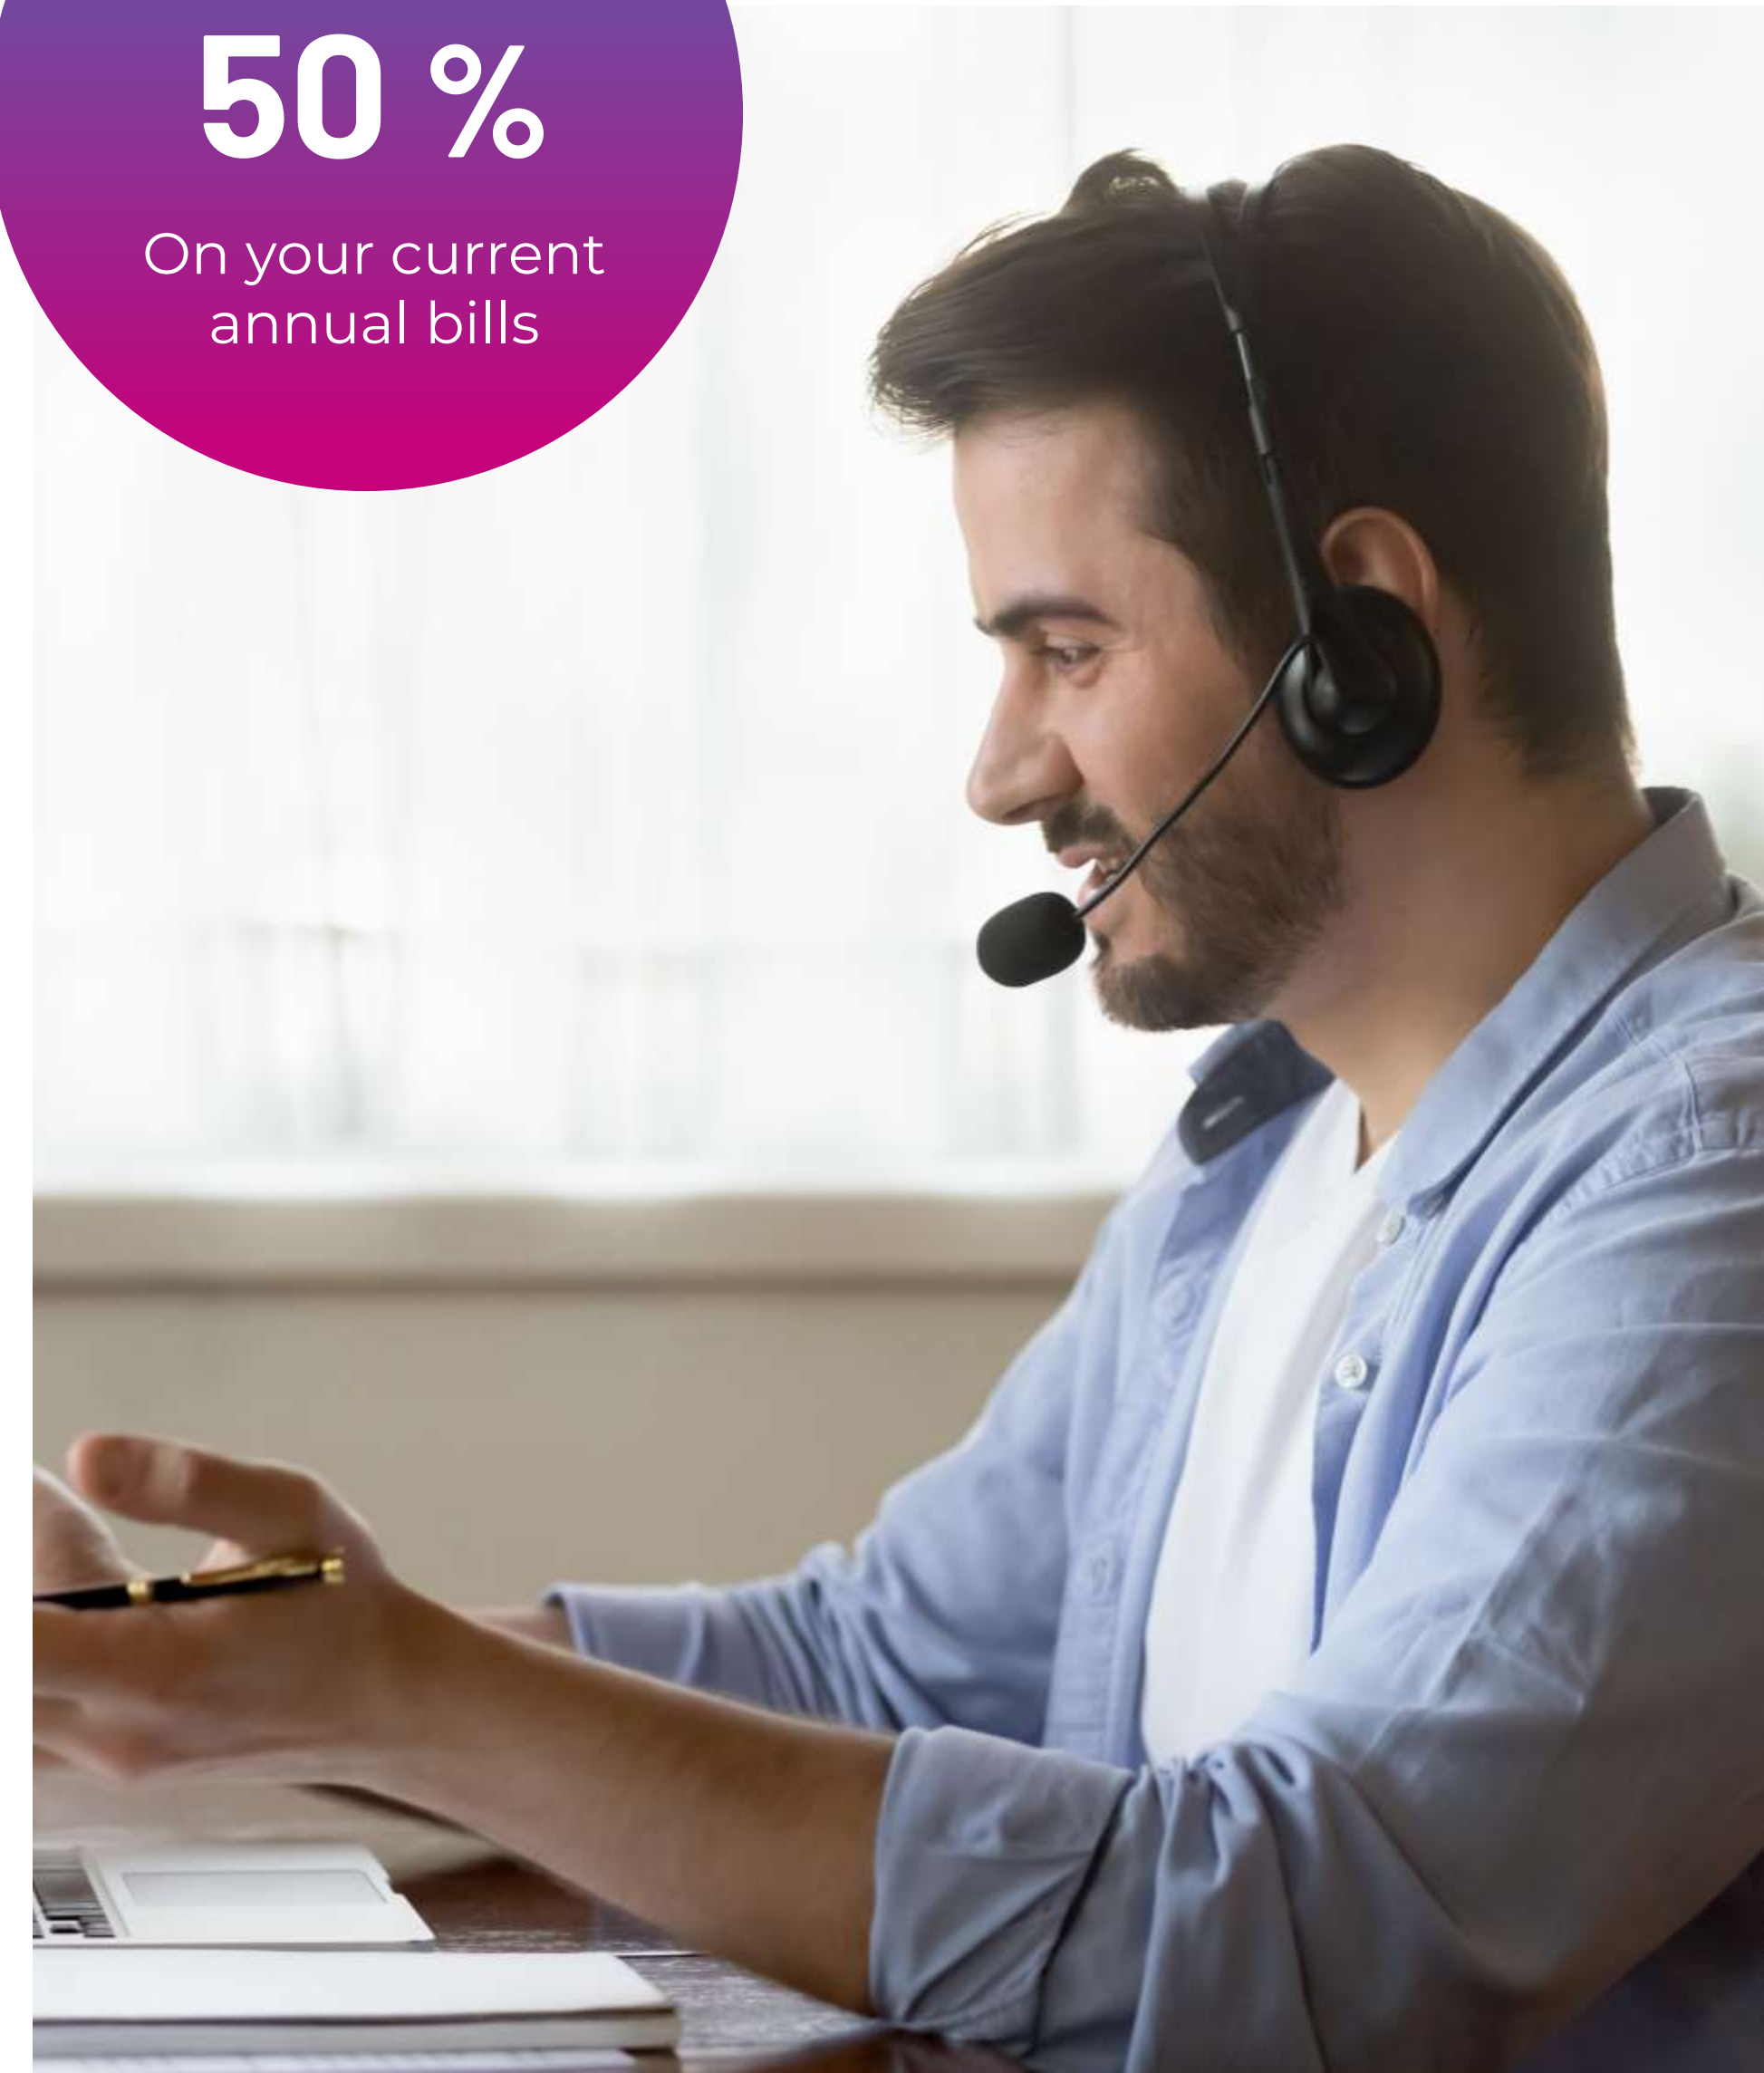

Supports Remote Working

VoIP systems work over the Internet. This means that VoIP can effectively support home and remote working, which is particularly vital during the current climate.
